Summary

Computer Engineering student with a strong foundation in programming, problem-solving, and software development. Experienced in AI-driven automation, RPA, robotics, and technical troubleshooting. Adaptable and analytical, with hands-on project experience and a strong interest in developing practical, efficient technology solutions.

Work Experience

Operations Assistant

Jan 2026 – Present

Prife International EU • Warsaw, Poland

Supported daily business operations through administrative coordination, documentation management, inventory monitoring, and procurement support to ensure efficient workflows and effective resource management.

- Supported daily business operations to ensure smooth and efficient workflow across departments.
- Coordinated administrative tasks, maintained accurate records, and managed documentation and filing systems
- Monitored inventory, tracked supplies, and supported procurement and resource management activities.

Technical Sales & Automation Intern

Sep 2025 – Mar 2026

Rhenai Digital Workforce • Warsaw

Supported clients in identifying and implementing tailored RPA, AI, and low-code automation solutions by assessing business requirements, optimizing operational processes, and promoting automation best practices through stakeholder engagement and knowledge-sharing.

- Supported clients in identifying business automation opportunities and implementing Robotic Process Automation (RPA) and AI-driven solutions to optimize business processes.
- Assessed business requirements and translated operational challenges into tailored automation solutions aligned with organizational objectives
- Promoted RPA, AI, low-code solutions, and automation best practice through internal knowledge-sharing and external stakeholder engagement.

Skills

Programming Fundamentals, Data Structures, Version Control (Git), Debugging, Problem Solving, Basic SQL,

Object-Oriented Programming

Education

Vistula University

Oct 2023 – Expected Apr 2027

Computer Engineering | Bachelor of Science (BS)

Relevant coursework: Introduction to Packet Tracer · Network Support and Security · Introduction to Cybersecurity

- Hosted and facilitated a cybersecurity workshop aimed at educating participants on various types of cyberattacks, demonstrating how these attacks occur, and raising awareness of effective cybersecurity practices and preventive measures.
- Participated in robotics exhibitions, designing and developing functional robotic prototypes, including a controllable cleaning boat and an autonomous pool-cleaning boat. Gained hands-on experience in robot design, system development, programming, and troubleshooting through collaborative, project-based engineering activities.
